A FINE EXHIBIT. Special Features of the Display at the

Fresno Fair. Copyright, 1888, by the California Associated Press. FRESNO, September 25th.—This morning the gates of the Fresno Fair Association were thrown open to the public. The city is crowded with strangers, and the prospects are that it will be one of the most successful exhibitions ever held in the State. The feature of to-day was the great stock parade, which took place at 10 o'clock, in which some of the finest horses and cattle

ever exhibited in this State were brought before the public, the chief of which were twenty-two imported Cleveland Bay stallions, prize-winn and Sacramento. prize-winners in England, Chicago Secretary Baldwin is more than pleased with the outlook, and told your corre-spondent to-day that he expected to see one of the most successful exhibitions in the

history of Fresno county. The exhibits would certainly be a credit to any exhibition in the land, and shows the wonderful resources of Fresno county. Among the most important is a beautiful isplay made by the Barton Vinyard of grapes, wine, etc. T. C. White exhibits a fine assortment of raisins, nuts and dried raits, the products of his vineyard in sec-

ine display from their cannery. The baby show is quite a feature, and romises to be as interesting as amusing.
Secretary Maxey has charge of the Board of Trade exhibit, which is very creditable and could not be in better hands. He is highly elated over the glowing outlook. racing events of the day were Running, 600 yards and repeat, purse \$200, which was won by Smith & Howard's

Ben Ali and Rosa Mac Do Some Splendid Trotting.

Copyright, 1888, by the California Associated Press SAN JOSE, September 25th.-The second day of the exhibit of the San Mateo and Santa Clara District Society drew out a large attendance. The display of fine horses and cattle exceeds that of any preous year. The pavilion display is not o ents any consequence. The Horticultural So-ents ciety is also giving an exhibition at Horticultural Hall, but it is not patronized to any extent, as the show is only the rem-nants of goods used at the Mechanics' Fair

There were about 1,500 persons at the track this afternoon to witness the races. The first was a trotting contest, purse \$400 for the 2:35 class, best three in five. The entries were Ben Ali, Maggie E. and Son 23 net. Five heats were trotted, Ben Ali win ning the first, second and fifth and the race and money. Time, 2:28-2:22-2:23-2:194 -2:23. The third and fourth heats were won by Maggie E.

The second race was also a trot, three n five, for the 2:20 class. The entries were Franklin, Rosa Mac and San Diego. Only two heats were trotted, when it became too dark to continue. Franklin secured the first heat, and Rosa Mac the other. The race will be concluded to-morrow.

CONTRA COSTA FAIR.

Opening Day of the Fair at Martinez-The Races.

Copyright, 1888, by the California Associated Press MARTINEZ, September 25th .- The twen eighth annual Fair of the Contra Costa Association began here to day. The indi-cations are that it will be the best exposi-ion yet given by the Association. The race track has been worked for some weeks and is now in prime condition. From the fine weather and general interest manifested by horsemen, the races promise to be

tocked, and the number of entries for the remium list is unusually large, though he range of territory over which this fair extends is somewhat limited. The officers of the Association have made strenuous ndeavors to secure the largest representa tion possible, and quite a number of stock-men from other counties have been at-

lay six infamous scoundrels of Tulare county, who gave their names as Robert Dorn, G. W. Dorn, A. V. Berry, W. H. Evans, Edward Evans and E. H. Evans were arrested in the vicinity of Tulare Lake, with a four-horse wagon load of venison, twelve carcases of which were found to be females. They were brought here to day, tried before Justice of the Peace Curran and fined \$518.

The complaint was made by the officer of the Sportsmen's Club here. The knights of the trigger are determined to put a stop to the slaughtering of deer in this county. Information has just reached here of anther gang of scoundrels being in the intains south of here illegally killing deer and antelope, and setting fire to the dry pasture. The Club has sent out parties to capture them.

Washington, September 25th.—The Re-bublican tariff bill, as announced in these columns last week, was submitted to the regulate the course at the Naval Academy columns last week, was submitted to the fall committee to-day. Its birth attracted a great deal of attention, everyone being anxions to see just what sort of a pro-duction it was. The curiosity of many was not gratified, only members of the committee being given copies, and these they were not allowed to earry out of the com-mittee-room, as Chairman Allisen did not want the bill made public until the Democrats had had time to prepare their minority report. This could easily be done in a week, but Senator Harris, who will do the work in the absence of Senator Beck, told me to-night that he abould not hurry about

the matter at all, and would probably be three or four weeks about it.

The main points of the bill have been given in these columns before, and the material changes from the original plan are not many. The majority of these changes were made to please the Western Senators, who are now in hearty accord with the measures. They will vote as a man for the bill. A PROTECTIVE BILL. The bill, as it stands, is not complete in the one sense that it is subject to change. It is more than probable that it will be changed in many ways. The metal schedule, for instance, will be changed. Steel rails, now cut to \$13 20 per ton, are likely to be further cut to \$14 per ton. The bill, too, provides for the abolition of the tobacco tax. This is by no means final, and is more than likely to be changed.

There can be no question as to the prolongation of the session if the tariff subject is formally entered on. Indeed, there are Senators of both parties who do not regard it as practicable to dispose of the bill by election day. The bill

Within two years I have visited Surope twice, and spent considerable time in London. While there the meetings of unemployed laborers were held every Sun-day afternoon in Trafalgar Square and hem. I saw thousands of the hard-work ng British operatives asking for work to save their families from starvation. I was amazed to see in rich and powerful Engand the state of affairs that existed there. Through her "free-trade" policy, Engand has closed every sugar refinery England, and 30,000 men are thrown out of

mployment.
The once flourishing lace industry Nottingham is killed, and thousands of cause the English free-traders permit the heap fabrics of Saxony to come into England free of duty. The good Britisher boasts that the workingman in his country has cheap sugar, beef, clothing, etc.; but when he cannot earn money enough to buy these cheap necessaries of life? The England kills her home industries and cripples her farming interests. Foreign supplies England with almost every article you can imagine, and her home in dustries are the sufferers. In order to avoid such a state of affairs in

this country, I am determined to vote against the principles that Mr. Cleveland is hink it means free trade four years hence, and free trade means: First-Competing against the cheap labor

of Europe. Second—Reduction of wages in every oranch of trade.
Third—Reduction of the "earning power" t every dollar of capital now invested in merica, either in manufacturing, farming r any other pursuit.

Mr. Cleveland will find out. Our manu-facturing and agricultural interests need rotection, thereby protecting our labor interests. If the much talked of surplus bothers our politicians, let them wipe out the internal revenue system. Should we still have too much surplus, then let our Fovernment fortify our 7,000 miles of sea coast, and last, but not least, let our Government give a helping band to an Amercan merchant marine.

Nearly every European country has adopted a protective system. England looks to America for an ally in her "Free Trade" craze, and if the Democrats are foolish enough to endeavor to assist in pulling "English chestnuts out of the fire," they will find that the American people believe that "charity begins at home. England is altogether too liberal with her good (?) advice. DEMOCRAT.

PROTECTION DEMOCRATS MUST VOTE FOR HARRISON. C. C. Shayre, a well-known business man f New York, hitherto a Democrat, in announcing his purpose to support Harrison, Morton and protection, says: "On this cases were detected in Oakland, but were question of protection I have got to vote immediately quarantined. One case was with the Republican party. I am a protectionist because I want to pay my men small-pox hospital. Owing to the exceedfit of education and not be ground down ease which developed during the past as poor men are in Europe. I am for pro-winter, proper precautions were not taken tection because it keeps them and me from in those parts of the State, outside the competition with cheap labor and with cheap goods made by cheap labor. Free disinfect or fumigate the premises, or trade would upset our whole social system as much as to let the Chinese come in. It would ruin us every way. The Mills bill attacked by the disease, many of the cases is only a step toward free trade. I have never going to bed, and others as equally nothing to say against President Cleve-careless of the health of their neighbors.

WHAT SHALL THE TARIFF BE? Cutting the tax from the sheep's white wool cutting the tax from the silken spool, cutting the tax from the silken spool, Cutting the tax from the cotton hose, What shall the tariff be? Oh, what shall the tariff be? Cut by Cleveland and cut by Mills. Cut in platform and cut in bills, Slashed from everything you see, Free, oh free, shall the tariff be.

Lopping it off from the farmer's flax, Lopping it off from the cutler's ax. Lopping it off from the weaver's web, Lopping it off from the spinner's thread. What shall the tariff be? Oh, what shall the tariff be? Paying England for boots and shoes; Paying England for all that we use, Starving our labor and shutting our mills, Killing our commerce with fee-trade bills; What shall the harvest be?

can you educate your children better? can you lay by a surplus in case of sickness or old age easier in this country than they can LOWEST DEATH RATE OF ANY STATE IN THE UNION.

State Board of Health-Pre-

The monthly circular of the State Board of Health was somewhat delayed this month, owing to the absence, on official business, of the Secretary, Dr. Gerrard G. Tyrrell. The report shows that the death rate in this State during the month of August was lower than in any. It contains much valuable information and is worthy of a careful perusal.

THE MORTALITY. Mortality reports received from fifty-one cities and towns, with an estimated popula-tion of 722,600, give the number of deaths as 908, which is a monthly percentage per may be charity to foreign operatives, but I thousand of 1.25, or an annual death rate for one believe that charity begins at home of .15 per thousand, which is the lowest ercentage we have had during the year, and indicates an absence of any seriou pidemic disease. Consumption caused 138 deaths, over

ne-sixth of the total mortality. Pneumonia was fatal in forty-three intances-thirty-two of them in San Francisco, four in Oakland, and one each in Stockton, Santa Rosa, Santa Clara, San Bernardino, Nevada City, Marysville and Dixon.

Bronchitis caused fourteen deaths, thir When the London Times thinks the best teen of which occurred in San Francisco Congestion of the lungs was fatal in nin instances-one in Sacramento, one in San down our protective tariff, that makes me Diego, and seven in San Francisco. A Masher Mashed,

A lady, whose husband gets through with his business down town about 9 o'clock at night has been in the habit lately of going down to meet him and walk home with him. On Saturday evening, in pursu-Luce of this custom, she was walking along Third street between I and J and saw her husband and another gentleman coming from the direction of I street. About the same time a well-dressed young man of the "masher" order walked up by her side and announced his intention of walking home with her. She made no reply, and he was just beginning to feel that he was on a good footing when they met the lady's husband and she said to the latter, with the utmost coolness: "Here is a young man who says he is going to walk home with me." No words were spoken, but in an instant the husband's right arm shot out straight from the shoulder, and the "masher" lay sprawl-

Police Court.

Yesterday was the dullest day for some time in the Police Court. Harry Edward admitted that he was drunk, but as it was his first offense he was allowed to go. William Burchard tried to explain that the battery with which he was accused by his wife was all a little fun. He had caught her by the hair and held her, but it was while they were playing together and he was not angry though he admitted that he was drunk. Judge Buckley took the case under advisement until Friday. The cases of Lizzie Marks, Lou. Pierson, Mary Brown, Lizzie Thompson, Maggie Brown and Dolly Cooper, charged with vagrancy, were continned until to-morrow.

AN IMPORTANT CASE.

Office Disagree. Register Hetzel and Receiver Linthicum, the old Great Register for Sacramento city of the United States Land Office in this city, have each forwarded to Washington still entitled to vote, are not borne upon the opinions in a case entitled "Central Pacific new Great Register, and unless those who Railroad Company, applicant, vs. S. D. mineral claimants." The case is one of ... 2 00 not vote at the approaching election. It now great importance, and the final decision of A.C. Flemming, of Lincoln, Placer county the General Land Office will be watched with interest. The two gentlemen arrive at opposite conclusions, as will be seen by

> sions of law as given by each. THE RECEIVER'S OPINION. Mr. Linthicum's findings of facts is as

the following finding of facts and conclu-

In 1865 or 1866 the Rising Sun mine was discovered and located in Section 33, and patent was obtained for the same in 1870 without protest from the Central Pacific Railroad Company. Said Rising Sun mine was operated until 1882, and gold of the value of \$2,600,000 was extracted therefrom. In 1882, said mine having ceased to be profitable, work thereon was discontinued and has not been resumed.

The Milford mining claim, now known as the

and has not been resumed.

The Milford mining claim, now known as the Big Tree mine, was originally located in 1866, subsequently bought by the Rising Sun Company, and work was done on the location by the Rising Sun Company up to 1886. The ledge was considered a parallel ledge to that of the Rising Sun. The quartz formation and country rock are the same in both mines. Said Miltord claim was relocated by Werry and Nichols as the Big Oak Tree in 1883, and has been actively and continuously worked since then. About \$30,000 had been taken out of the mine prior to the destruction of the hoisting works by fire in August, 1887, and recent extensive improvements have been erected thereon.

Lying around and adjoining the Rising Sun mine are four mining claims, to-wit: the Big

our mining claims.

The only land claimed to be non-mineral in The only land claimed to be non-mineral in character by reason of the exhaustion of the mineral and abandonment, is a portion of the southeast quarter of section 33 lying between the Rising Sun mine and Bear river. The testimony shows that there was some surface mining in a ravine running down the Rising Sun mine to Bear river, and also in the bed of said river, between the years 1857 and 1862, both of which were abandoned in 1662, and have not been worked since.

His conclusions of law are as follows: That the lands embraced in the mining claims mown as the "Big Oak Tree," "Little Pine Free," "Wherry" and "Gold:n Eagle," are all nineral lands.

nineral lands.

That all of lots of said section which are not imbraced in the said mining claims, and the pretended ground of the Rising Sun mine, are ricultural in character.

That a survey should be ordered to segregate as mineral land embraced in said mining laims from agricultural land, of which the mainder of said lots is comprised. THE REGISTER'S OPINION.

Mr. Hetzel's finding of facts is as follows: That the Central Pacific Railroad Company That the Central Pacific Railroad Company of California actually constructed and had in operation as early as September, 1855, their railroad through the land, and no change in the route has been made since that date.

That by official survey, approved by the Surveyor-General of the United States for the District of California December 26, 1865, the whole of section 33 of said township, became identified as an odd numbered section, within five mules of said road, as actually located and constituted.

miles of said road, as actually located and constructed.

The whole of said section 33 was, after the said location and construction of said railroad, duly returned by the Surveyor-General as agricultural land, and no part of it was returned or denominated as mineral land.

That at the time of said return of said land by the Surveyor-General and the construction of said road there were no mines in operation upon said lands, nor upon any part of said section 33, nor was any part of said section 33 known to be valuable for mineral land.

That the railroad company's rights to the land in question acquired precision on the 26th day of December, 1865, and vested as of date July 1, 1862.

day of December, 1865, and vested as of date July 1, 1862.

That the first discovery of mineral on said section was in March, 1866, when the tract known as Mineral Lot 37 was located by one Neff, as the Rising Sun Quartz Claim; that the same subsequently went to patent from the Government, and that it was subsequently by its owners deemed exhausted and has not been worked since 1882. worked since 1882. That after the location of the Rising Sun mine

That after the location of the Rising Sun mine and about April, 1866, another mining claim was located upon lot 3 of the southeast quarter of said section 33, being a part of the land in controversy, and was called the Milford claim, but it was not operated as a mine nor was it proved to be valuable for mineral purposes until after its relocation in 1883, under the name of the Big Oak Tree mine, by the assignors of the present mineral contestant. present mineral contestant.

That said Big Oak Tree claim now contains a known mine, and is of more value for mineral than agricultural purposes; that it was not proved to have any value for mineral uses until

subsequent to 1883.

That all the other mining locations on the southeast quarter of said section 33 consists of quartz claims surrounding the Rising Sun mine, or none of which have been worked as mines, or none of which have been worked as mines, or none of which have been worked as mines, or none of which have been worked as mines, or not a contain mineral in quantities suffinone of which have been worked as mines, or proved to contain mineral in quantities sufficient to pay the expenses of extraction, and that all of them have been located since the relocation of the Big Oak Tree mine, in 1883.

That there are no placer or gravel claims upon any of the tracts in question.

That the land in all of the said tracts is agricultural land, adapted for fruit trees and vines.

His conclusions of law are as follows: That the title of the Central Pacific Railroad Company, under the Act of Congress, became rested as to all the lands in the southeast quar-er of section 33, as of date, July 1, 1862. That at the time said title yested none of the ands in the section were within any exceptions rom the grant by reason of any status as min-ng lands.

That the subsequent discovery of minerals in paying quantities on that part of lot 3 of said southeast quarter occupied by the Big Oak Tree mine does not affect the right of said railroad

company or its grantees.

That the Central Pacific Railroad Company is mutitled to patent for all the tracts the subject of this hearing.

Lying around and adjoining the Rising Sun mine are four mining claims, to-wit: the Big Oak Tree, Little Pine Tree, Werry and Golden Eagle, in each of which quartz, in place bearing gold, has been discovered of sufficient promise to justify the development of the same. These four locations lie within lots 1, 2, 3, 4 and 5 of the southeast quarter of section 33 aforesaid, and embrace a part thereof. The testimony does not show that any of those lots are mineral in character, except within the limits of said four mining claims.

A .- Because the Judges fail in properly instructing them. THE CASE OF H. MARKS, For selling goods cheaper than any other house in Sacramento, was tried before a jury of twelve, and all unanimously agreed that the said H. MARKS, Proprietor of the MECHANICAL STORE, was guilty of selling goods cheaper, and the Judge con-

curred and fined him, telling him he had no right to do so. But Marks says he will continue doing so. * MECHANICAL STORE, *

414 H Street, Sacramento, HAS RECEIVED A LARGE SHIPMENT OF MEN'S, YOUTHS' AND BOYS' CLOTHING: also a very large quantity of UNDERWEAR of all grades, WHITE and PERCALE SHIRTS, SCARFS and TIES of the finest meterial and design, HATS and CAPS of all grades. In fact the stock is so large that it cannot be enumerated, and rather than earry the stock over or allow it to be shopworn, I have caused a "genuine" CLEARANGE SALE to commence, and the price of every article is very much reduced and marked in "plain figures," and I invite inspection, as it will be to your advantage to visit the MECHANICAL STORE before purchasing elsewhere. A great reduction is made in the prices in the Boot and Shoe Department; also in the Hat, Cap and Hosiery Department.

SAN FRANCISCO MARKET. SAN FRANCISCO, September 25th.
FLOUR—Trade continues of fairly liberal proportions. We quote: Net cash price for Family Extras, \$4 60@4 85 \$ bbl; Bakers Extras, \$450@ Extras, \$4 60.24 85 % bb1; Bakers Extras, \$450.64 60; Superfine, \$385 to \$3 60.

WHEAT—The Liverpool market does not at the moment present a specially inviting area for exporters. Quotations yesterday dropped nine pence on cargoes just shipped, and no change for the better was reported to day. It is probably only a question of time before a recovery will be chronicled. Meanwhile the local situation is one of uncertainty and more or less inactivity. Shippers are not inclined to operate with freedom, and only buy when compelled either to take in stiffening or finish loading. This morning the highest bidding figure for spot lots by sample was \$3 47½ % ctl, and sellers either had to accept the price or keep their goods for a while longer. Most holders appear inclined to choose the latter course, believing in a near reaction. color go almost begging, although no fault can be found in other respects. Bright feed cannot be bought under 80c, while 81½c is paid by millers for a selected lot, and in some instances nothing less than 82½c will be accepted by the seller. There is a sort of hope that Eastern Brewers will be to be found to be selected by the seller.

There is a sort of hope that Eastern Brewers will later in the season step to the front as buyers of heavy, bright feed, in which event stocks would move off with greater freedom and possibly at better rates. Choice Chevalier continues in good request for shipment to Great Britain, and all suitable offerings can be promptly placed within quotations. S eady demand is also noted for Brewing Barley. Much of this class is being secured on account of Eastern customers, going forward at leisure. We quote as follows: No. 1 Feed, 80/811/c for new and 77/sc for old; common grades, 75@771/4; Brewing, 971/2c for fair to good; Chevalier, 95c@\$1 10 for common, \$1 20@ 130 for fair and \$1 45@ 150 \$\mathrew{P}\$ ctl for good to choice. good to choice.

OATS—The market continues in unsatisfactory shape. Buyers have largely the advantage at the moment, and it looks as if t-ings would remain in about the same weak condition for some little time to come. Heavy receipts of Oats, with low ruling prices for feed Barley, are circumstances that must necessarily press Oat quotations downward. We quote: Surprise, \$1 20@ 125; milling, \$117½@120; choice feed, \$115; No. 1, \$1 10; lower grades, \$1@1 05. Black, \$1@1 10; Gray, \$1 05@1 07½ a ctl.

CORN—With low prices prevailing for almost all other cereals it is not reasonable to expect that Corn will prove an exception to the rule. Offerings are fairly liberal and of desirable quality, but somehow buyers are not easily found. Prices easy. We quote: Yellow, \$1 20@1 22½; White, \$1 35@1 45 a ctl.

CRACKED CORN—Quotable at \$29@30 \(\frac{3}{2}\) ton; fine kinds for the table, in large and small packages, 2½@2½(c \(\frac{3}{2}\) b.

OILCAKE MEAL—Quotable at \$28 \(\frac{3}{2}\) ton.

SEEDS—Prime lots of Yellow have been taken recently for shipment. Some little more trading in Brown is reported. A small lot of new Alfalfa has been received, but the season for liberal business has not yet opened. We quote prices: Mustard, Brown, \$2 5@3 25; Yellow. OATS-The market continues in unsatisfactor

DRIED FRUIT—Some little trade is in prog-ress on local account, while moderate shipments to the East are reported, consisting largely of Peaches and Apricots. For pitted Plums the Peaches and Apricots. For pitted Plums the demand is light and movement is slow. Apples in quarters find fair inquiry. Offerings of dried Grapes are liberal, but custom is slow. Nothing of importance doing in Prunes. In regard to Raisins the Grocer and County Merchant says: "The Raisin crop is maturing well, but as the season advances estimates of the pack are somewhat reduced from the highest quantity mentioned early in the season. Outside districts generally have not come up to expectations, while the Fresno crop will exceed that of last year. It is not claimed now that the total pack in the State will be much larger than that of 1887. The demand for Raisins for shipment East is good, and sales for the week aggregate pack in the state will be much larger than that of 1887. The demand for Raisins for shipment East is good, and sales for the week aggregate large. The fact that the crop matured early this year has been a decided betefit to producers, as it has enabled them to place stock in Eastern markets in advance of Malaga fruit. This to some extent accounts for the free movement of this fruit." We quote prices as follows: Sun-dried Apples, 4@5c \$\frac{1}{2}\$ b or sliced and 3\frac{1}{2}\lloed 7c; Apricots, 11@13c for bleached; do, sun-dried, 8@10c; Blackberries, 12@13c; Figs, 4@5c for pressed, 2\frac{1}{2}\lloed 3\frac{1}{2}\lloed 6\lloed 7c; Apricots, 11@13c for bleached; do, sun-dried, 8@10c; Blackberries, 12@13c; Figs, 4@5c for pressed, 2\frac{1}{2}\lloed 3\frac{1}{2}\lloed 6c; for pressed; Smyrins Figs, 13@16c for lavers, and 7\lloed 6c for lavers; Nectarines, sun-dried, 5\lloed 6c for labeled do. 7@10c \$\frac{1}{2}\lloed 6c; for unpressed; Fears, 4c for whole and 5\lloed 6c for labeled; Pears, 4c for whole and 5\lloed 6c; for pitted and 2\lloed 3c for unpitted; German Prunes, 5\lloed 5\lloed 6c; French Prunes, 6\lloed 6\lloed 7c \frac{1}{2} \lloed 6c; French Prunes, 6\lloed 6\lloed 7c \frac{1}{2} \lloed 6c; French Prunes, 6\lloed 6c; Figs, 5c for sliced; machine-dried, 7\lloed 8c; Figs, 7\lloed 7c; French Prunes, 6\lloed 6c; \frac{1}{2} \lloed 5c for pitted and 2\lloed 3c; French Prunes, 6\lloed 6c; Figs, 6c; Figs, 6c; Figs, 6c; Figs, 6
